

I would like to encourage you to NOT implement any proposal that would lessen Indiana's Telephone Privacy Protections. I used to receive many calls a day which i do not have time for and it was a terrible nuisance and invasion of privacy. Now i recieve only 1 or less calls per day. It has been wonderful and has freed up our phone for important calls and given us much peace in our household. This is very important to our family and home life. Thank you, Renae Cox
